DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. M. Scott McBride on April 30, 2009.

The application has been amended as follows:

Claims 26, 71 and 50 have been amended as follows:

26. (Currently Amended) A method of recovering a metal rich fraction from a metal-ceramic based composite, the method including the steps of increasing the size of at least a ceramic component within the metal-ceramic based composite by heating the metal-ceramic based composite, crushing the metal-ceramic based composite to reduce the size of the metal rich fraction in the composite in comparison to the ceramic component in the composite, and then separating the reduced sized metal rich fraction from the increased sized ceramic component to result in a metal rich fraction in powder form having a volume fraction of metal that is greater than about 60%, wherein separation of the components is achieved by sedimentation, electrophoresis, electrostatic methods, magnetic separation, or chemical leaching, ~~or the like~~.

50. (Currently Amended) The method according to claim 49 wherein the crushing or crushing and milling occurs in an inert environment ~~such as~~ under argon or a vacuum.

71. (Currently Amended) The method according to claim 59 wherein separation of the components is achieved by sedimentation, electrophoresis, electrostatic methods, chemical leaching, or magnetic separation, ~~or the like~~.

Allowable Subject Matter

Claims 26-28, 31, 35-37, 47, 49-52 and 55-87 are allowed.

The following is an examiner's statement of reasons for allowance:

The applicant's amendment filed on February 27, 2009 has obviated the rejections recited in the Office action dated October 1st, 2008. Nagle et al. (US 4,921,531) does not disclose the method of recovering a metal rich fraction from a metal-ceramic based composite comprising a heating step, a crushing step and a separating step as claimed in instant claims 26, 59 and 76.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Weiping Zhu whose telephone number is 571-272-6725. The examiner can normally be reached on 8:30-16:30 Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on 571-272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
